

● Dark Web Weekly Intelligence Briefing

Week of 07 June 2026

CYBERAWARE UK — GUARDED BY BULLY

📄 Executive Summary

DarkWatch monitoring of 18+ Tor onion targets this week reveals ongoing ransomware operations, credential marketplace activity, and scam-as-a-service offerings targeting UK residents.

🔑 Key Findings

- **Ransomware:** LockBit 3.0 and BlackCat/ALPHV leak sites active with new UK victims
- **Credentials:** 12,000+ UK email credentials listed on breach forums
- **Scam-as-a-Service:** New phishing kit targeting UK banking customers detected
- **Initial Access Brokers:** UK corporate VPN access listings observed on underground markets

🔍 Monitored Targets

Active monitoring of ransomware leak sites, breach forums, criminal marketplaces, and threat actor communication channels via Tor-proxied connections.

📍 Sources

CyberAware UK DarkWatch — Tor-routed dark web monitoring across 18+ targets including ransomware leak sites, breach forums, and criminal marketplaces. Enriched with OSINT from open sources.
